

**Commercial vehicles** are a key component of every business and have to withstand a lot every day so there is no room for compromise.

As dedicated as you are to your fleet, it's best to rely on a supplier who is driven by dedication.

As an authorised Bosch dealer we can bring you the full range of Bosch services for your commercial vehicles needs.

We supply every aspect of Bosch Commercial vehicle diesel fuel injection parts, from **injectors** and **pumps** to **sensors, filters** and all the internal **repair parts** you may require to provide a swift repair.

Not only do we hold the most comprehensive parts stock in the country, we are also suppliers for Bosch diagnostic equipment and software. The Bosch **ESI[tronic] software** and **ECU KTS tools** enable you to control, diagnose, troubleshoot, repair and maintain your customers' vehicles.

Bosch Commercial fuel injector and pump exchange program supported at FDS

## Exchange Bosch Truck Range

- DAF
- Iveco
- MAN
- Mercedes-Benz
- Renault
- Scania
- Volvo

As we are an authorised Bosch Diesel Center we repair an extensive range of Bosch diesel Injectors and Pumps.

We have a fully accredited Bosch authorised diesel workshop facility and our Bosch trained technicians use the latest original equipment production methods. Our workshop uses the most advanced diesel technology in both test equipment and OE software updates.

All wearable parts and critical components are inspected and replaced with genuine Bosch parts using the correct disassembly and assembly tooling.
